- Advanced confined space/high angle rescue, 40 hours

The Best Minds in the Business!

# TOTAL PROTECTION

Total Safety is there when you need us. We're on call 24/7 with the comprehensive rescue-related support you need to keep your workers safe and in compliance. We specialize in:

- Standby rescue services
- Confined space entry rescues
- High angle rescues
- Hull entry rescues

## Complete Confined Space Services

Total Safety provides confined space entry rescue services to help you protect your workers, comply with OSHA standards and reduce the likelihood of a crisis. We'll help you and your employees anticipate possible problems and uphold safe practices in a confined space, even when conditions change. Total Safety offers:

- A fully equipped confined space response team
- Liaison assistance between contractor and site safety professionals
- Safety supervision and confined space assessment
- Space or site rescue pre-planning and pre-entry equipment staging
- Proper entry permit documentation
- Pre-entry safety meeting
- Pre-entry and continuous atmospheric monitoring
- Continuous entrant supervision
- Safety equipment sales and rentals

Total Safety's rescue services comply with the following confined space entry OSHA standards:

- 29 CFR-Part 1915-Subpart B
- 29 CFR 1910.146

## Comprehensive Hull Entry Services

Total Safety's extensive line of hull entry services has you covered, from highly skilled personnel to specialized equipment. Among the array of solutions we provide are:

- The writing of hull entry procedures and guidelines
- Ventilation of confined space
- Ambient air testing – LELs, O<sub>2</sub>, CO, H<sub>2</sub>S, VOCs
- Removal of all entry points
- Secondary fall arrest systems
- Explosion-proof lighting
- Site safety personnel
- Hull entry attendants
- Hull inspection
- On-site marine chemist
- Supply of Grade D breathing air for ventilation and pneumatic tools
- Medical management

## Rapid Emergency Responsiveness

Only Total Safety has experience in the actual rescue of injured personnel from DDCVs and SPAR type offshore platforms.

All standby rescue rental equipment is serviced and maintained on site to meet all regulatory and manufacturer specifications.
