

RESPIRATORY SOLUTIONS

Need Reliable, Responsible Respiratory Solutions? Call the Best Minds in the Business.

Only BEH/Total Safety has the people, programs and processes to ensure the industry's most reliable respiratory protection for your operation. We tailor our capabilities as an industry leader around your unique business and operational dynamics to:

- Optimise your investment in respiratory equipment
- Deliver unsurpassed quality of service and repair
- Provide testing and compliance support you trust
- Eliminate respiratory bottlenecks during turnarounds
- Give you services packaged the way you want them

From refining and petrochemical facilities to oil and gas drilling, BEH/Total Safety provides top-quality respiratory equipment and unmatched service to keep your people safe and your operations profitable.

- Hydrogen sulfide (H₂S) packages
- Total turnaround safety services and consultation support
- In-Plant Service Centers (IPSCs)
- Respiratory equipment hires, cleaning, repair and maintenance
- Respiratory fit testing – Pulmonary Function Test (PFT)
- Respiratory protection systems
- Safety attendant service

Optimise Equipment Investments

BEH/Total Safety provides the best possible returns on respiratory equipment utilisation, regardless of your facility's business or operating strategy.

- Asset management of customer-owned equipment
- Long- and short-term equipment hire
- New equipment sales from top industry providers, such as MSA, SCOTT Health and Safety, Air Systems and Dräger

With the best minds in the business handling your respiratory needs, you have a single-source partner for all Grade D breathing air demands, including:

- Single cylinders
- Cascade systems
- Tube trailers
- Patented High Pressure Breathing Air Loop System (HPLS)
- Breathing air compressors

BEH/Total Safety's exclusive, patented High Pressure Breathing Air Loop System (HPLS), as well as our expertise in the design of custom air configurations, helps you create the ideal respiratory environment for efficient, effective operations.

Total Safety is an authorised distributor of respiratory protection equipment from suppliers such as:

- MSA
- Air Systems
- SCOTT
- Dräger

Quality Equipment Service and Repair

At BEH/Total Safety, we meticulously service every product we carry and have the industry expertise to facilitate the repair or maintenance of all major respiratory protection products. We offer:

- Trained and certified technicians
- 24/7 service
- Processes that maximise productivity and minimise stress
- Service agreements built around your needs

Expert Testing and Compliance

We ensure that your equipment stays in proper working order, both for optimum performance when you need it and to meet regulatory compliance standards.

- Monthly or annual compliance inspections
- Annual flow testing of equipment
- Hydrostatic testing of cylinders
- Fit testing
- Regulatory consultation and counsel

Convenient On-Site Service

BEH/Total Safety's expertise makes respiratory protection solutions fast and easy. Our In-Plant Service Centers (IPSCs) make equipment sales, service, maintenance and upgrades more economical by stationing our centers where you need them most.

H₂S Custom Respiratory Protection Solutions

At BEH/Total Safety, we're experts at delivering custom respiratory solutions packaged for your operating demands, such as our H₂S service for oil and gas drilling environments, which includes:

- Site-specific contingency plans
- Respiratory (SCBA) equipment hires and sales
- Gas detection and alarm systems hires and sales
- Respiratory Pulmonary Function Test (PFT) and fit testing
- Expert technicians
- Grade D breathing air
