

WIND ENERGY SOLUTIONS

Need Reliable, Responsible Wind Energy Safety Solutions? Call the Best Minds in the Business!

Only Total Safety has the people, programs and processes to ensure the industry's most reliable safety protection for the wind industry. Total Safety's expert safety services keep your workers safe and in compliance so they can be in the business of keeping your turbines producing at optimum capacity.

Expert Safety Services Customized to Your Needs

Total Safety is the global leader of safety services and solutions, which means we have the equipment base to supply everything you need to keep your operations running productively and safely. That wide reach enables us to customize projects tailored to your specific requirements.

- **Fall protection** – the industry's largest array of equipment from top vendors to protect workers with comfortable equipment that delivers 100 percent fall protection
- **Radios** – communication systems that keep workers in constant contact to maximize productivity and provide instant communication in emergency situations
- **Climbing systems** – cutting-edge technology in safe and reliable ascending/descending applications for any height execution, which also offers a smart long-term economical investment
- **Fire systems** – complete service, inspection, maintenance, optimization, design and installation of fire protection equipment
- **Gas detection** – portable, fixed, wireless and addressable systems for rent or purchase, long or short term
- **Lighting/beacons** – a comprehensive supply of beacon light sources and a full range of emergency and signal lighting adapted to your exact specifications
- **Safety personnel** – only tenured, experienced safety supervisors
- **Medical management** – highly trained on-site medical care, even in remote locations, to ensure worker safety and wellbeing
- **Confined space** – dedicated trainers offer programs in standard confined space procedures, including atmospheric testing and ventilation
- **Personal protective equipment (PPE)** – from climbing helmets to hi-visibility vests, to first aid kits and protective clothing, we are a one-stop source for your required PPE
